FOCUS AREA	FEATURE	etiometry	CLEW MEDICAL	DECISIO	TALIS CLINICAL	MEDICAL INFORMATICS SICKBAY	CAPSULE	ETIOMETRY'S UNIQUE FEATURES
CLINICAL DECISION SUPPORT	• AI-Driven Risk Analytics	✓	✓					4 FDA cleared algorithms continuously tracking key physiologic risks
	• Aggregates all data sources and provides longitudinal view	✓	✓	✓	✓	✓		All high-fidelity device data together with labs, key EHR data, such as infusions, sedation, fluid balance
WORKFLOW & AUTOMATION	• Condition-Specific Solutions with Automated Clinical Practices incorporating AI analytics	✓		✓	✓			Key pathways tied to hemodynamic management (cardiogenic shock, goal directed therapy) and respiratory management (extubation, ARDS, lung protective ventilation)
DATA & OUTCOMES	• Published Evidence of Solution's Impact on Outcomes – multifaceted applications, including automated Clinical Practices and AI	✓		✓				36% reduction ICU LOS 41 % reduction ICU bouncebacks 30 % reduction time on vents 18% reduction time on vasoactive meds 20% reduction hospital LOS
	• Platform for Research, QI Initiatives with SDK	✓				✓		Algorithm development kit & Platform tools for deploying and validating algorithms in practice
SECURITY & COMPLIANCE	• FDA & CE Regulatory Approval for Clinical Decision Support and AI in ICU	✓	✓	✓			✓	10 FDA clearances for clinical decision support, risk algorithms, cyber security validation, automated pathways
	• Cybersecurity Validation by FDA	✓	✓				?	Explicitly validated in 2025 FDA clearance
